MENTOR-MENTEE LOGBOOK

Phase I MBBS · One mentor : three mentees

Academic year	Batch / admission year
.....	
Faculty mentor (full name)	
.....	
Designation	Department
.....	
Employee / faculty ID	Mobile
.....	
College email	
.....	
MEU / Mentoring cell in-charge (name)	
.....	

GVPIHCMT, Visakhapatnam · Confidential faculty record · Not for student circulation · Retain till CRMI as per CBME 2024
Allotment during Foundation Course · Mentee remains with the same mentor till CRMI

HOW TO USE THIS LOGBOOK

This book is for **one faculty mentor** and **three Phase I mentees** (NMC CBME 2024 ratio 1:3). Meet about **once a month**. There are **12 meeting sheets per mentee** for this academic year. Add extra sheets later if needed.

Before the first meeting

1. Fill your name and department on the cover and the mentor page.
2. Complete one **Student profile** with each mentee in the Foundation Course week.
3. Fill SWOC together. Keep health and family issues brief; use the confidential note if needed.

Each monthly meeting (aim: 15–20 minutes)

1. Open that mentee's next numbered sheet. Write date, time and place first.
2. Tick topics. Write only three short notes: issue → student action → your follow-up.
3. Both sign. Write the next date before they leave.
4. Tick the yearly tracker (front) so you can see missed months at a glance.

What to cover over the year (not all in one meeting)

Adjustment & hostel · attendance (75% eligibility) · Anatomy / Physiology / Biochemistry · internal assessment · FAP · AETCOM · exam stress · sleep/health · ragging/safety · career curiosity · parent contact as required by college.

Escalate the same day (do not only write it here): thoughts of self-harm, ragging, sexual harassment, acute medical illness, or a student who stops attending. Inform the Mentoring cell / MEU / Dean as per college SOP. Record “referred on (date)” — not the clinical detail.

Privacy. This is a faculty log. Do not leave it in a shared staff room unlocked. Do not photograph pages onto a class WhatsApp group. Parent meeting records may be required by UGMEB/NMC — keep those factual and short.

Suggested month map (adapt to your college calendar)

Sheet	When	Focus (optional prompt)
1	Foundation / Month 1	Settling in, hostel, language, first-week fears
2	Month 2	Study method, attendance habit
3	Month 3	1st IA / dissection hall, SWOC review
4–5	Months 4–5	Subject-wise difficulty (AN / PY / BC)
6	Month 6	Mid-year: morale, FAP, AETCOM
7–8	Months 7–8	Pre-professional, weak areas
9	Month 9	3rd quarter IA, eligibility (attendance)
10–11	Months 10–11	University exam plan, sleep, family support
12	Month 12	Year-end, next phase, keep the same mentor

MENTOR RECORD

Department & designationMentoring cell / MEU reference no. (if any)

NMC CBME 2024: Mentor from Professor/HOD to Assistant Professor. Mentees allotted in Foundation Course (Phase I). Same mentor continues till CRMI. Each new year, three new Phase I mentees may be added; seniors support juniors (sibling environment, not ragging).

Year at a glance — tick when that monthly meeting is done

[illegible]

Put a ✓ in the month column. Circle the number if the meeting was missed and rescheduled. This one table is enough to see who you have not seen.

Parent / guardian meeting (college may need this for UGMEB)

[illegible]
